INFORMATION ON COSTS AND FEES FOR TRADING IN SECURITIES

1. Securities trading via Broker:

SpareBank 1 Markets AS ("SpareBank 1 Markets") remuneration in the form of brokerage, exchange rate difference, subscription commission or other, possibly with the addition of fees related to trading and clearing etc. will be subject to individual determination.

Brokerage is a remuneration that is added or deducted from the value of the financial instruments that the client buys or sell. Brokerage is normally stated as a percentage. Up to a certain investment amount, the client normally pays a minimum commission. For certain financial instruments, typically in the fixed income market, brokerage is not charged, but a price difference "spread", i.e. the difference between purchases and the selling price. Spread will depend on the market conditions and the type of financial instrument traded.

Securities	Brokerage:
Listed securities	0,03% - 2 % per trade in listed securities depending on: <ul style="list-style-type: none"> - Size of the order - Stock liquidity - Broker`s resource usage
Unlisted securities	0,5% - 3% depending on: <ul style="list-style-type: none"> - Size of the order - Stock liquidity - Possible settlement risk - Broker`s resource usage
Minimum commission	Listed securities: NOK 400,- per trade. Separate rates for one-time trading*. Unlisted securities: NOK 1200, - per trade. Separate rates for one-time trading*. Foreign securities: NOK 1200,- per trade. Separate rates for one-time trading*. *One-time trading (for example in case of estate): NOK 800,- per trade or 0.5% if total amount exceeds 160.000 NOK
Bond Trading	During Bond trading in the secondary market, SpareBank 1 Markets will calculate a price difference which will normally be in the range of 0.1 – 2.0 %, based on the face value of the bond. Price difference may vary based on: <ul style="list-style-type: none"> - Time and resource usage by SB1M in connection with the trade - Liquidity of the particular bond - Volume of trade - Settlement risk - Volatility in the market - Capital usage Exceptionally, the price difference can be up to 3 % of the face value of the bond when trading in illiquid securities or other special market conditions.
Initial Public Offering (IPO)/trade in primary market	When subscribing for share issues, brokerage or price difference is not normally paid directly from the client to SpareBank 1 Markets. The company issuing securities on the issue normally pays a pre-agreed commission to the facilitator / subscriber.
Foreign securities trade via broker	In the case of trading in foreign securities, the settlement amount in foreign currency will be converted to NOK the following day unless else is agreed. When currency is exchanged, the exchange rate is used at the moment the exchange takes place. For transactions in foreign securities, customers will be charged according to the clearing

	<p>costs of the particular country. In some cases, third-party brokers may be used in accordance with SpareBank 1 Markets; Order Execution Guidelines in foreign securities trading. Remuneration to third- party brokers will be charged to the client, which will appear on the final note.</p> <p>When selling foreign shares, the client will be charged the costs incurred by SpareBank 1 Markets in connection with the transaction. In addition, ordinary trading costs for SpareBank 1 Markets will be added.</p>
--	---
